

# Electrical enclosures

ALES manufactures electrical enclosures with different dimensions according to customer's needs. The enclosures are intended for low voltage networks and they are made from steel sheets protected with electrostatic powder coating with colors according to customer's choice. They are intended as base mounted or on/in wall mounted. We manufacture two types of electrical enclosures:

1. Measuring cabinets
2. Industrial cabinets

## Measuring cabinets

## Technical specification

<b>Installation type</b>	Base mounted or on/in wall mounted
